EDUCATION

Stony Brook University

Expected May 2026

Bachelor of Computer Science

GPA: 3.5+

Relevant Coursework: *Data Structures, Programming Abstractions, Scripting Languages, Theory of Computing, Algorithms, Database Systems, Fundamentals of Software Development.*

SKILLS

Programming languages: *Java, Python, C/C++, JavaScript, Ruby.*

Web development: *HTML, CSS, React, Svelte, Node.js, Express.js.*

Database management: *MongoDB, MySQL, SQL (queries, joins, schema design).*

Version control & collaboration: *Git, GitHub, Fork client (branching, merging, conflict resolution).*

Software engineering: *Object-oriented programming, authentication systems.*

Cybersecurity: *Basic web security principles, password hashing, Capture the Flag challenges, ethical hacking.*

Networking fundamentals: *HTTP, REST APIs, client-server communication.*

Languages: *Portuguese (Native/Bilingual), Spanish (Full Professional).*

PROJECTS

Reddit Replication

SBU

Full-stack developer

Fall 2024

- *Led a two-person team in developing a full-stack Reddit-style application using React, Node.js, and MongoDB.*
- *Implemented key features including user authentication (login, logout, guest access), community creation and membership management, post and comment systems with support for creation, deletion, and sorting.*
- *Designed secure registration using password hashing and managed database structure.*
- *Collaborated via GitHub using Fork client to provide a collaborative development environment.*

Twitter Replication

SBU

Full-stack developer

Fall 2023

- *Contributed to a three-person team to replicate core Twitter functionality using Svelte and MySQL.*
- *Implemented features including user profiles, bookmarks, follows, timelines, and tweet interactions.*
- *Supported development using SQL libraries and managed team collaboration through Fork client for efficient version control and team workflows.*

LEADERSHIP EXPERIENCE

OMEGA Club – President

Fall 2023

- *Led a computer science club focused with 10+ students on technical collaboration and cybersecurity.*
- *Hosted weekly meetings that featured Capture The Flag exercises and ethical hacking of member-developed websites, along with community-building events.*

Chess Club – President

Full 2022

- *Organized weekly meetings and one major on-campus tournament with 30+ participants.*
- *Coordinated an intercollegiate online competition with Baruch College, promoting competitive and strategic engagement.*
