EDUCATION

Stony Brook University

May 2026

Bachelor of Computer Science

Relevant Coursework: *Database Systems, Software Development, Systems Fundamentals, Computer Networks.*

SKILLS

Programming languages: *Java, Python, C/C++, JavaScript, Ruby.*

Web development: *HTML, CSS, React, Svelte, Node.js, Express.js.*

Database management: *MongoDB, MySQL, SQL (queries, joins, schema design).*

S.E.: *Agile Development, Scrum, OOP, Testing, Code Reviews, Authentication, Requirements Analysis.*

Version control & collaboration: *Git, GitHub, Fork client (branching, merging, conflict resolution).*

Networking fundamentals: *HTTP, REST APIs, client-server communication.*

PROJECTS

Fantasy Baseball Draft Kit and API

SBU

Full-stack developer

Spring 2026

- . Developed a full-stack fantasy baseball draft platform using React, TypeScript, Node.js, Express, and MySQL for real-time draft management and player valuation.
- . Designed and implemented RESTful APIs supporting player rankings, authentication, roster management, and customizable fantasy league settings.
- . Built a dynamic player valuation engine that integrates MLB statistical data and adjusts rankings based on league rules, roster construction, budgets, and positional scarcity.
- . Implemented automated testing and CI/CD pipelines using Jest, GitHub Actions, and Vercel while collaborating in a five-person Agile development team.

Reddit Replication

SBU

Full-stack developer

Fall 2024

- . Led a team in developing a full-stack Reddit-style application using React, Node.js, and MongoDB.
- . Implemented key features including user authentication (login, logout, guest access), community creation and membership management, post and comment systems with support for creation, deletion, and sorting.
- . Designed secure registration using password hashing and managed database structure.

LEADERSHIP EXPERIENCE

OMEGA Club – President

Fall 2023

- . Led a computer science club focused with 10+ students on technical collaboration and cybersecurity.
- . Hosted weekly meetings that featured Capture The Flag exercises and ethical hacking of member-developed websites, along with community-building events.

Chess Club – President

Full 2022

- . Organized weekly meetings and one major on-campus tournament with 30+ participants.
- . Coordinated an intercollegiate online competition with Baruch College, promoting competitive and strategic engagement.

WORK

Bartender/Floor Manager – Casa Fuego, Ridge Hill

2025 – Present

- Leveraged Toast POS and Excel to generate weekly sales reports, analyze operational data, and support staffing, inventory, and business decisions.
